Computer
Not a Computer
Characteristics
Not-Characteristics
Powered by electricity
Computer
Not a Computer
They're technological
They don't have the same technological properties.
Computer.
Not a Computer.
Gains, Stores and gives knowledge
Programmed with a specific Purpose
computers
Not computers
They need to be Programmed in order to Function.
They need to be plugged in and they automatically do their function. The old-fashioned car & the old cash register are already programmed to work
Katherine Gomez, Emmanuel D., Tanisha T, R.
